Gary, Ex. 6 PP / Ex. 7(C) / Ex. 7(D) I am sure in a fix with cooping with this Albion 12 Investment THING . There cows about 150 to 200 or on Howell Creek at Ex. 6 PP / Ex. 7(C) / Ex. 7(D) plus aprox. 1/4 mile of live stream . The water is next to mud can,t filter out the mess and stream is being diverted by cows crossing banks. Looks like I have no one to turn to. Am now trying Idaho Dept. of AG , DEQ, also Jim in your Twin Falls Office is Helping , and others . This is not good so far news wise. Need help Ex. 6 PP / Ex. 7(C) / Ex. 7(D)

Ex. 6 Personal Privacy (PP) I have in the past with no response but will try again . Back in spring of 2005 this albion 12 Investments may I say accidentally got oats in the creek from cleaning out a old storage building witch shoot me down completely for 10 days then spent 2 years cleaning up with only talking to there hired man Ex. 6 PP / Ex. 7(C) / Ex. 7(D) about the matter and Ex. 6 Personal Privacy (PP) Then now I don't see how too clean up current impacts on Howell Creek by cattle and may I say over development . I will pass this on to Katie Shewmaker at DEQ . Thanks Ex. 6 PP / Ex. 7(C) / Ex. 7(D)  
ps I don't like having to do this when it is over My head . This impacts more then I am saying and not that I have not been working to solve problem. again thanks.

Ex. 6 PP / Ex. 7(C) / Ex. 7(D) here. I am looking for solutions to this problems that have been going on in the Howell creek drainage for some time now . This is a small water shed that we depend on and I find it only going down hill.
